

The **site plan** shall include the following:

- A directional north arrow.
- The subject property.
- Existing zoning in the site vicinity.
- Nearby roads and highways shown and labeled.
- Property frontage distances along adjacent roads.
- Nearby existing accesses in the site vicinity shown and labeled appropriately (e.g. field, residential, commercial/industrial, or trail).
- Distances from proposed access to nearby accesses on both sides of the road.
- Distance from proposed access to nearby intersections.
- Distance from proposed access to nearby bridges, railroads and guardrail.

Distances from access to other access shall be measured from center of access to center of access.

Distances from access to intersections shall be measured from center of access to center of intersection.

Keith Laube, P.E.

Montrose County Public Works Director
